Classroom Outfitters began in 2008 and is dedicated to excellent customer service. Through our suppliers we have access to virtually all categories of loose and fixed furnishings, sports equipment, as well as, various types of educational audio/visual equipment. Additionally, we offer premium interactive classroom products which we believe set the standard for today's interactive technology. Training and ongoing support, after the sale, are included at no additional fee. Further, we do our own installations should you require that service. Although our customer base consists mainly of educational facilities, many of our products easily cross over to other venues, i.e. offices, parks, etc.
